[Docket No. 170816769-8162-02]

RIN 0648-XG676

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Western Regulatory Area of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amounts of Pacific cod total allowable catch (TAC) from catcher vessels using trawl gear to catcher vessels using hook-and-line gear, vessels using jig gear, and vessels using pot gear in the Western Regulatory Area of the Gulf of Alaska (GOA). This action is necessary to allow the 2018 TAC of Pacific cod in the Western Regulatory Area of the GOA to be harvested.

DATES: Effective December 14, 2018 through 2400 hours, Alaska local time (A.l.t.), December 31, 2018.

FOR FURTHER INFORMATION CONTACT: Josh Keaton, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing

fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2018 Pacific cod TAC apportioned to catcher vessels using trawl gear in the Western Regulatory Area of the GOA is 2,140 metric tons (mt), as established by the final 2018 and 2019 harvest specifications for groundfish of the GOA (83 FR 8768, March 1, 2018). The Administrator, Alaska Region, NMFS, (Regional Administrator) has determined that catcher vessels using trawl gear will not be able to harvest 725 mt of the 2018 Pacific cod TAC allocated to those vessels under § 679.20(a)(12)(i)(A)(3).

In accordance with § 679.20(a)(12)(ii)(B), the Regional Administrator has also determined that catcher vessels using hook-and-line gear, vessels using jig gear, and vessels using pot gear currently have the capacity to harvest this excess allocation. Therefore, NMFS apportions 725 mt of Pacific cod from the trawl catcher vessel apportionment to catcher vessels using hook-and-line gear, vessels using jig gear, and vessels using pot gear in the Western Regulatory Area of the GOA.

The harvest specifications for Pacific cod in the Western Regulatory Area of the GOA included in the final 2018 and 2019 harvest specifications for groundfish of the GOA (83 FR 8768, March 1, 2018) are revised as follows: 1,415 mt to catcher vessels using trawl gear, 85 mt to vessels using hook-and-line gear, 125 mt to vessels using jig gear, and 2,795 mt to vessels using pot gear.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority

set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the reallocations of Pacific cod in the Western Regulatory Area of the GOA. Since the fishery is currently open, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of December 11, 2018.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: December 14, 2018.

Acting Director,
Office of Sustainable Fisheries,
